

Dear Vilas County Community,

We Need Your Help!

Improved broadband is essential for a robust tourism industry and to diversify and grow Vilas County's economy to attract entrepreneurs, remote workers, and expanding businesses.

To evolve and strengthen Vilas County's economy, the Vilas County Economic Development Corporation (VCEDC) is focused on making Vilas County a broadband destination by working with the municipalities, Lac du Flambeau Tribe, Internet Service Providers, and County leadership to provide education, leadership, planning, support, and networking.

The VCEDC Broadband Workgroup is pleased to launch its Gen2 county-wide broadband survey to develop a detailed map of accurate broadband availability and coverage. This map will be used as a baseline to identify areas where broadband needs to be improved, provide accurate data for future grant applications, and demonstrate improvement.

Did you participate in last year's broadband survey? Thank you if you did. [Click HERE](#) for the results.

What kinds of information are we looking for in 2022?

- What type of location? (Home, Business, Seasonal Home, Other)
- Is broadband available? If yes, you will be directed to an automated broadband speed test, which will upload the results to our database.
- Email address

The survey takes 2 minutes to complete. Please share this survey with your colleagues, friends, and family who reside or visit in Vilas County. Let's get at least 5,000 responses!

[CLICK HERE](#) to complete the survey.

**Ensure you complete the survey from your Vilas County location to ensure accurate results.**

Thank you!

Sincerely,

VCEDC Broadband Workgroup
